REACH Statement

according to

- **Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), Article 33**
- **Candidate list of ECHA (European Chemicals Agency) Substance of Very High Concern (SVHC), Annex XIV of the REACH Regulation**

Company GGP-ELECTRONICS Osterode, as a manufacturer of printed circuit boards, is in the sense of REACH a so-called "downstream user". You only obtain non-chemical products (products) from GGP-ELECTRONICS Osterode. Under normal and reasonably foreseeable conditions of use, therefore, no substance should be released. As a matter of principle, GGP-ELECTRONICS Osterode is not subject to the obligation to register and the obligation to compile safety data sheets.

To ensure a high level of product safety for our customers, we are intensively pursuing the implementation of REACH on the part of our suppliers.

We are in close communication with our suppliers of chemical substances and preparations, such as raw materials and supplies for the manufacture, processing and processing of our products or for use in other operational processes. We have obtained binding information from those in the form of "Supplier Declaration Conformity" as to whether the substances of very high concern listed in ECHA's current Candidate List are contained in the products you supply above 0.1% by mass. Insofar as we receive information in this regard and become aware that the 0.1% by mass threshold for a substance of very high concern is also exceeded in our products, we are not required to comply with our statutory duty to inform under Art. 33 REACH and upon delivery progeny.

We confirm that we take all necessary organizational measures to meet the requirements after the introduction of REACH. From today's point of view and against the background of the information provided by our suppliers, it is unlikely that any substances of very high concern (SVHC) in the products listed in the lists up to and including 15 January 2019 will be concentrated in excess of 0.1 percent is included.

This declaration has been prepared and published on the basis of the laws and regulations in force at the present time and to the best of our knowledge and knowledge.

Even if GGP-ELECTRONICS Osterode considers this information to be reliable, we assume no liability for the accuracy or completeness of this information.
